MENOOSHA is a singer/ songwriter hailing from Cameroon (Central Africa) but now based in France and Germany. Her sound is a blend of Soul, R&B, Jazz and, naturally, Afrobeat. She debuted with the LP 'Satellite Brown Chick' which typified that sound while her single 'Talk to Me' (Sweet Thing) 'peaked at #14 in the UK's Top 30 UK Soul Charts.

Ms M's next album is almost good to go and intriguingly named 'Airs About Hair'... it's "*a collection of hair stories and statements in songs*".

The first single is 'Touching My Hair', an enigmatic little thing that has very peculiar attraction. It seems that MENOOSHA sees hair "

*as is a source of spiritual strength.....Hair is the glory of a woman!*

" If you're intrigued the single is out now and the album's on its way
